

I am writing you over my concern regarding LPFM stations priority over current FM translator service. I am a listener of K-Love in Minneapolis, MN on station 90.7FM. This station serves my community by providing wholesome, clean programming that my whole family can enjoy without fear of vulgar or graphic language. Replacing this station with LPFM stations could result in my family hearing music and programming that is not wholesome for my family or other families. I believe that K-Love serves the public interest by giving families a station and outlet in which to hear good, fair, faith based programming. Please take my comments seriously.

Thank you,
Marvin R. Richardson, RPh
